OFFICE  EXEC

An Office without IT

Is like a Room without a Door.

Your an expert at what you do.

We're experts at combining Real Estate with IT.

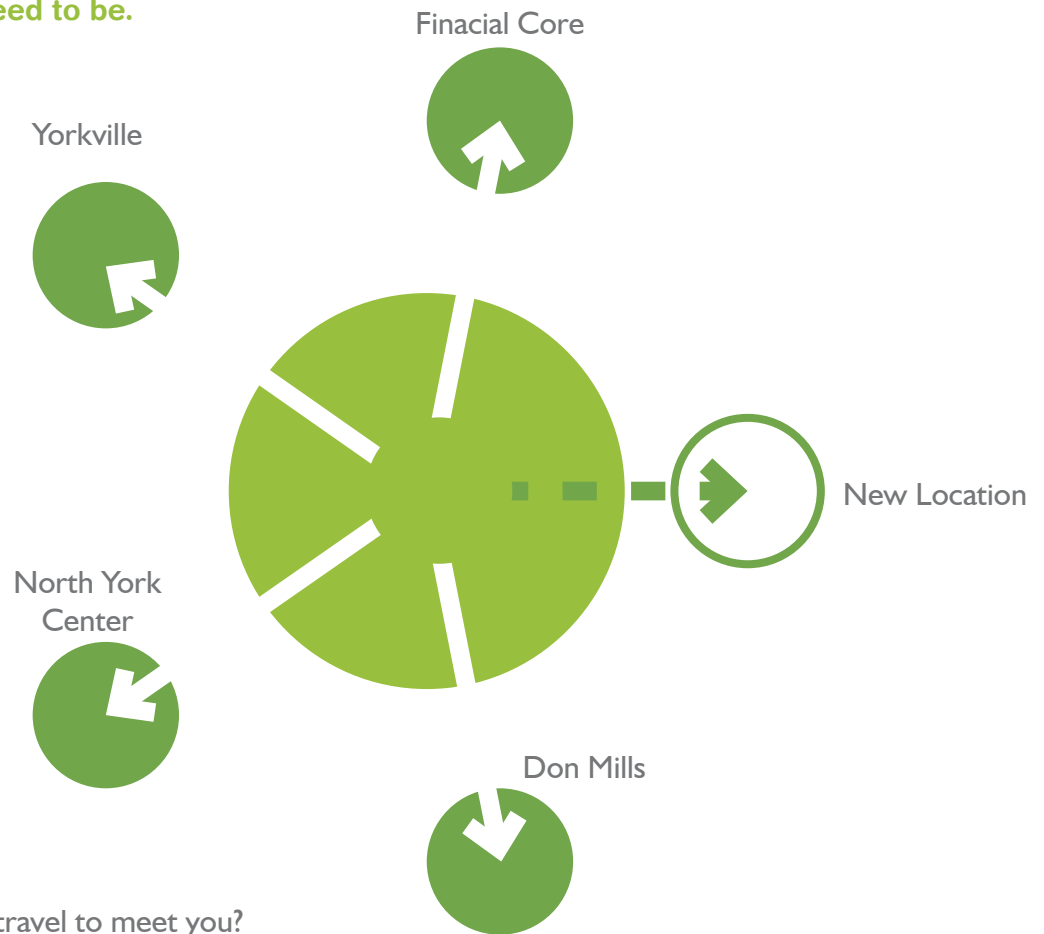

That's why even AT&T chose us.

They gave us their desired location and a move in date.
We did everything else.

[Leverage our expertise, so you can get back to yours.](#)

It's not about where you are.

It's about where you need to be.

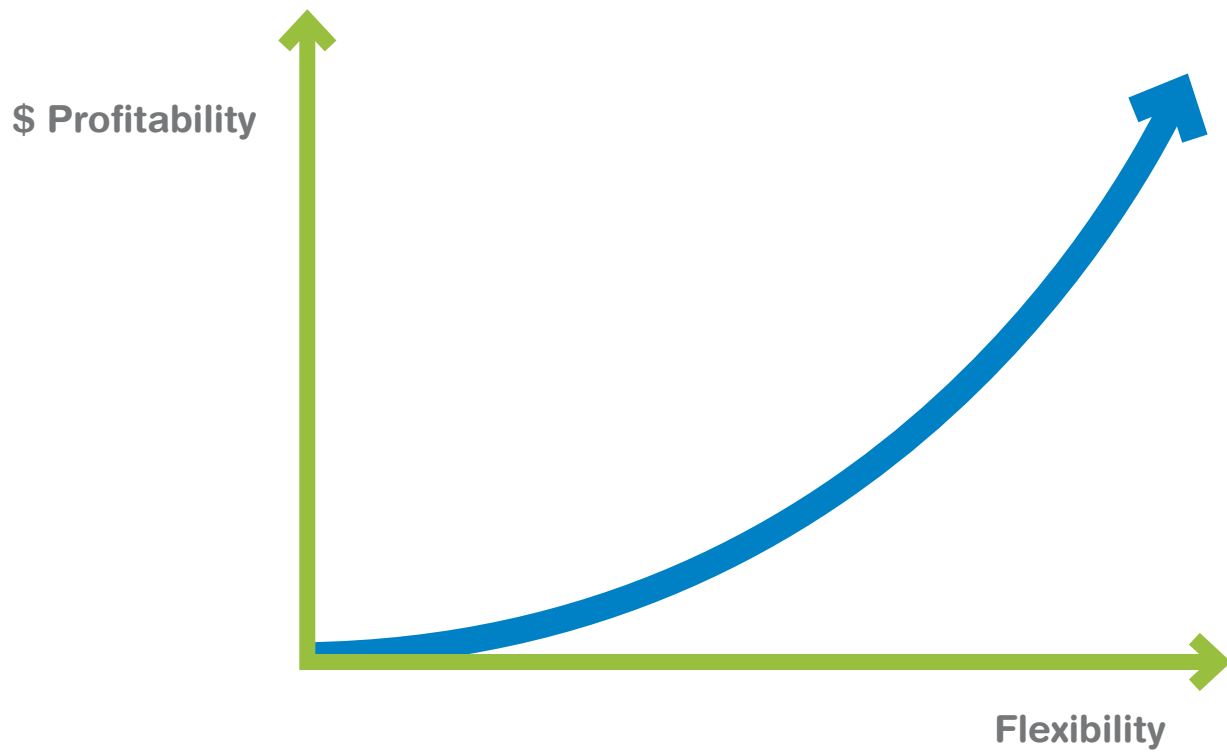

How far will your clients travel to meet you?

We've invested to give you the upper hand.

Reach out to clients across the city but still meet them locally.

Lower travel times. Convenient locations. Happier clients.

Take advantage, we don't mind.

**As Flexibility increases,
Profitability usually does, too**

No Contracts, means you have the upper hand.
Most clients adjust their services within the first 6 months. Growing businesses have changing needs.
If your solution doesn't adjust with your problems, it's a problem not a solution.

Phone Presence

Phone Number and Fax Number are standard.

We have additional features like IVR, Find Me, Follow Me and more.

We can provide local, long distance and toll-free numbers.

The phone is often the medium for first impressions.

Ask our experts today how they can enhance your phone presence.

Secretarial Services

Whether to help you book a catering service, greet your clients or push the midnight oil on some powerpoint slides, we have office assistance ready for when you need them.

This will ensure that you don't sacrifice your productivity!

Print Services

Our new printers are state of the art and comparable to those at Kinko's and Staples. Our prices are lower than anything you can find.

We worked hard to provide you with the most cost effective print solution available.

Kitchen

We all need to eat.

Complimentary coffee, tea and water are always available. Most of our kitchen are also equipped with cappuccino and hot chocolate machines.

There is no extra fee for kitchen access.
