Cost Comparison

	Officeexec Office Clouds	Standard Virtual Office*
Fixed Monthly Costs		
Phone#	\$149	\$225
Call Answering		
Fax#		
Mail Service		
Live Forwarding	\$0 (included)	\$25
Variable Costs		
Boardroom (average monthly usage) ¹	5 hrs a month - \$0	\$200
Courtesy Office (average monthly usage) ¹	3 hrs a month - \$0	\$0
Projector (while in Boardroom)	\$0	\$125
Internet (while in Office/Boardroom)	\$0	\$30 (\$10/day)
Phone (while in Office/Boardroom)	\$0	\$30 (\$10/day)
Total Monthly Costs	\$149	\$635
Optional		
Meet at different locations	\$0	\$75 - 225

From a cost point of view, Office Clouds clearly beat the Virtual Office packages we have encountered. Not a single virtual office package we encountered offered "meeting at different locations" without additional costs - despite the fact that they advertise their multiple locations aggressively. **Officeexec is the only provider that allows you to meet at multiple locations at no additional cost!**

* The lowest price for a comparable service was used. Most providers' prices range up into \$400 range for the same services as quoted here for \$225.

¹ Our statistics show that most of our clients use an average of 5 - 6 hrs of boardrooms for 3 meetings (usually on different days), and approximately 3 - 4 hrs for the courtesy office for phone calls and private sessions (spread over 2 - 3 days). This brings their total to 8 - 10 hrs a month. We offer 12 hrs which gives most clients enough time to conduct their business.
